SELECTED PROJECTS

Roar — Article Builder Platform

github.com/MxxScott/roar-frontend

- Built the frontend of a content-creation platform with a mobile-friendly article builder and a fully reworked UI system.
- Stack: Next.js 15, React 19, Tailwind CSS 4, Framer Motion, TypeScript.

Portfolio — mxxscott.github.io

github.com/MxxScott/MxxScott.github.io

- Interactive 3D portfolio: scroll-linked WebGL hero (React Three Fiber), Framer Motion animation system, and a Python build pipeline that pulls live project data from the GitHub API via GitHub Actions CI/CD.

Onlearn — E-Learning Platform

github.com/MxxScott/Onlearn

- Fully responsive landing experience for an online learning platform; documented to production standards. Nuxt, Vue 3, Tailwind, TypeScript.

Wings Height Insurance Brokers

github.com/MxxScott/Wings-Height-Insurance-Brokers-Limited

- Complete multi-page corporate website — quotes, claims, bookings, and service pages — delivered framework-free in HTML, CSS, and JavaScript.

Inventory Manager CLI

github.com/MxxScott/Inventory-Management-System

- Stateful Python command-line inventory tracker with full CRUD operations, documented through every SDLC phase.

EXPERIENCE

ICT Intern — AlmondSprings School

Sep 2020 – Dec 2020

Igando, Lagos (NG)

- Taught Information and Communication Technology at elementary and secondary levels, instructing students individually and in groups through lectures, discussions, and demonstrations.

- Maintained classroom and laboratory computers; supported students and staff with hardware and software issues.
- Administered standardized ability and achievement tests and interpreted results to identify student strengths and needs.
- Prepared materials and equipment — computers, audio-visual aids — to supplement classroom presentations.
